

Next-gen  
dental unit.

 **DIPLOMAT  
DENTAL  
SOLUTIONS**

# Welcome in Diplomat Dental

[www.diplomat-dental.com](http://www.diplomat-dental.com)

Our focus?

# Ergonomics.

# Innovation.

# Design.

We have decades of experience in dental engineering. With that in mind, we are pioneering a new era of dental industry.

We manufacture  
**locally...**

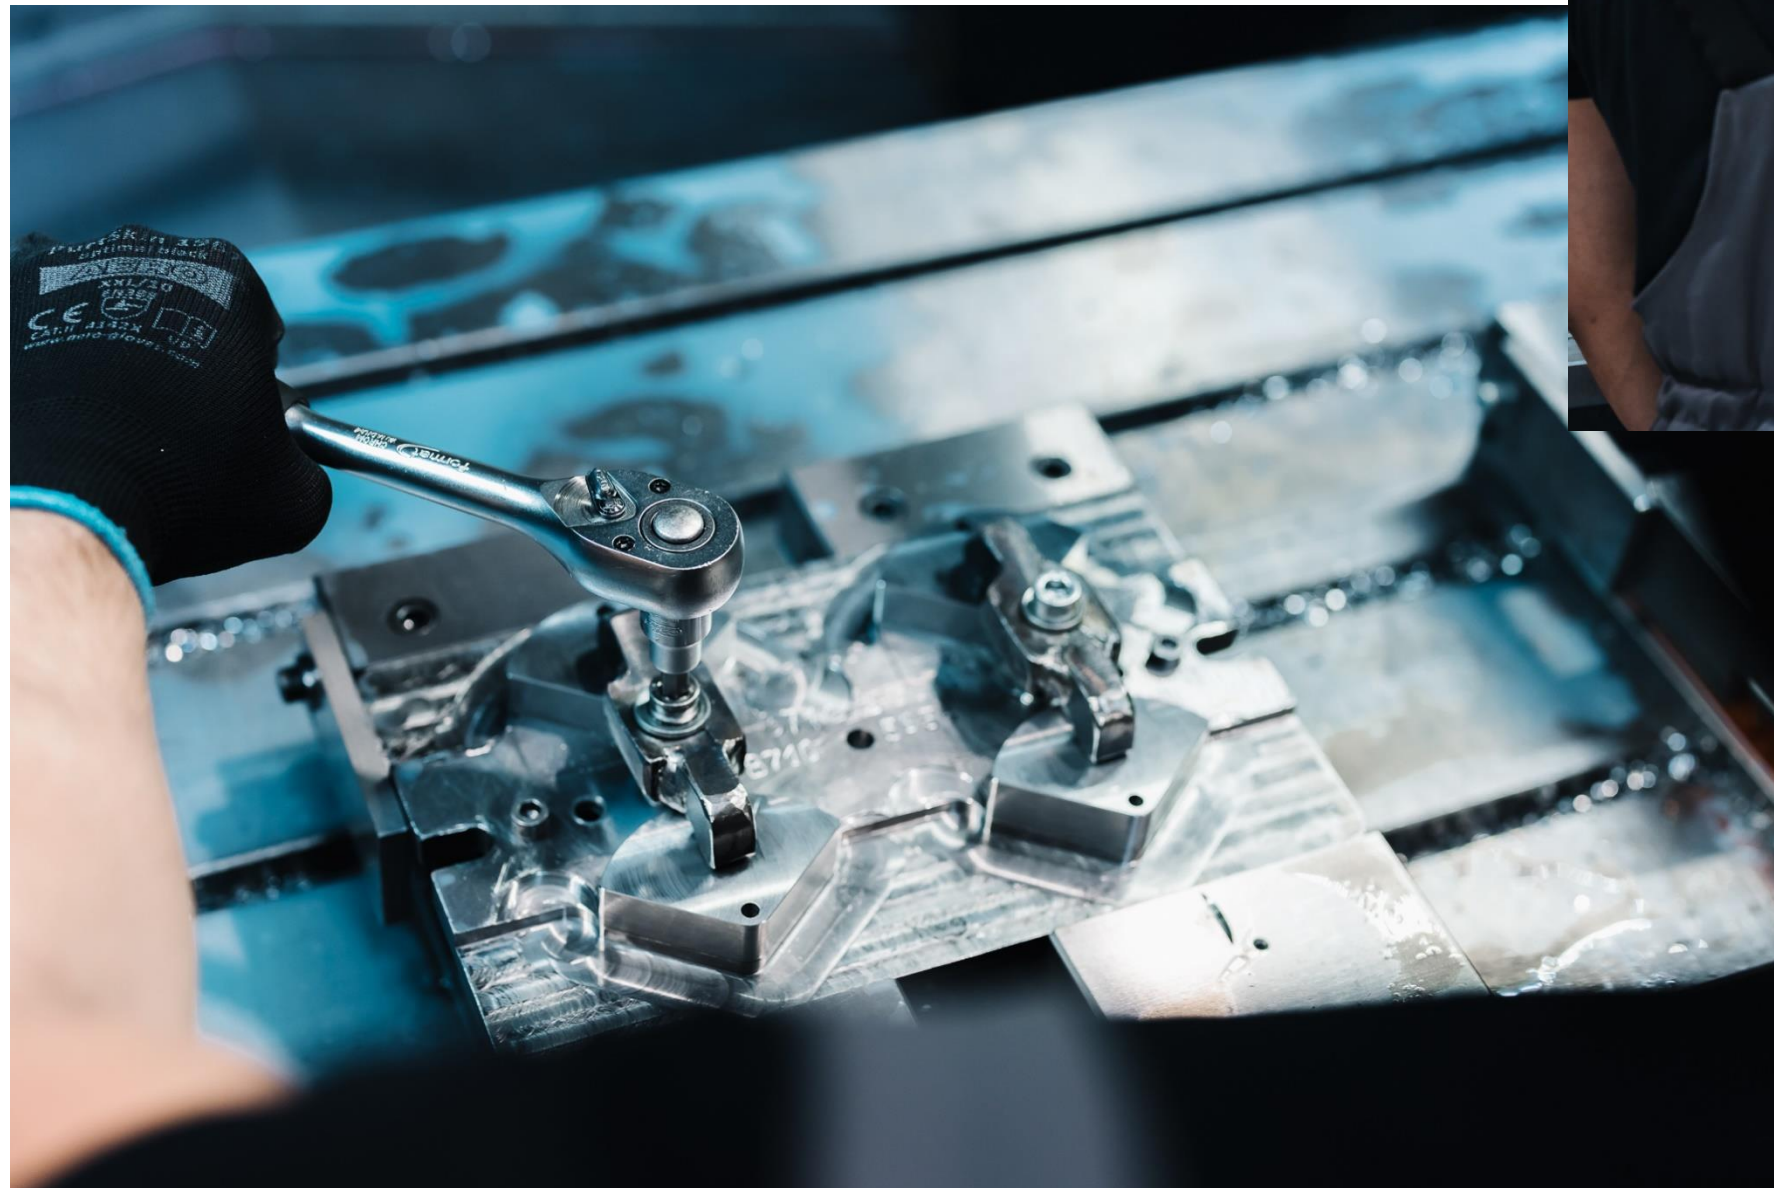

Diplomat Dental is a Slovak manufacturer.

All of our products are carefully designed and engineered to meet the specific needs of our customers while always attaining our high quality standards.

We perform quality controls on daily basis to deliver the best products possible.

90% of components are  
**manufacturing  
in-house.**

That's why we have total leadership over quality control of our all componets.

Each compoment of every dental unit is check during manufactured process **more than 15 times** from input material to the final element to Dental unit.

... and ship

# globally.

Diplomat Dental makes up to **2,000 units a year** and delivers them to customers worldwide. Exports make up to 98% of the total volume of sales.

Our products are shipped all over the world:

---

We always  
**strive to  
improve**

One of our biggest strengths lies in our **R&D team** and multiple cooperations with experienced partners.

## Cooperations that matter

Our dental units are a design collaboration of the sharpest minds from multiple industries.

We are proud that we have managed to get together a **team of experts** ergonomic researchers, technology innovators, and craftsmen to **work on our products**.

The unit control system hugely facilitates doctor-patient communication and makes the doctor's access to all essential data much faster, which significantly shortens the treatment.

# We focus

on customer  
satisfaction

Diplomat Dental products are **highly customizable**. We are able to accommodate specific requirements and needs of our customers.

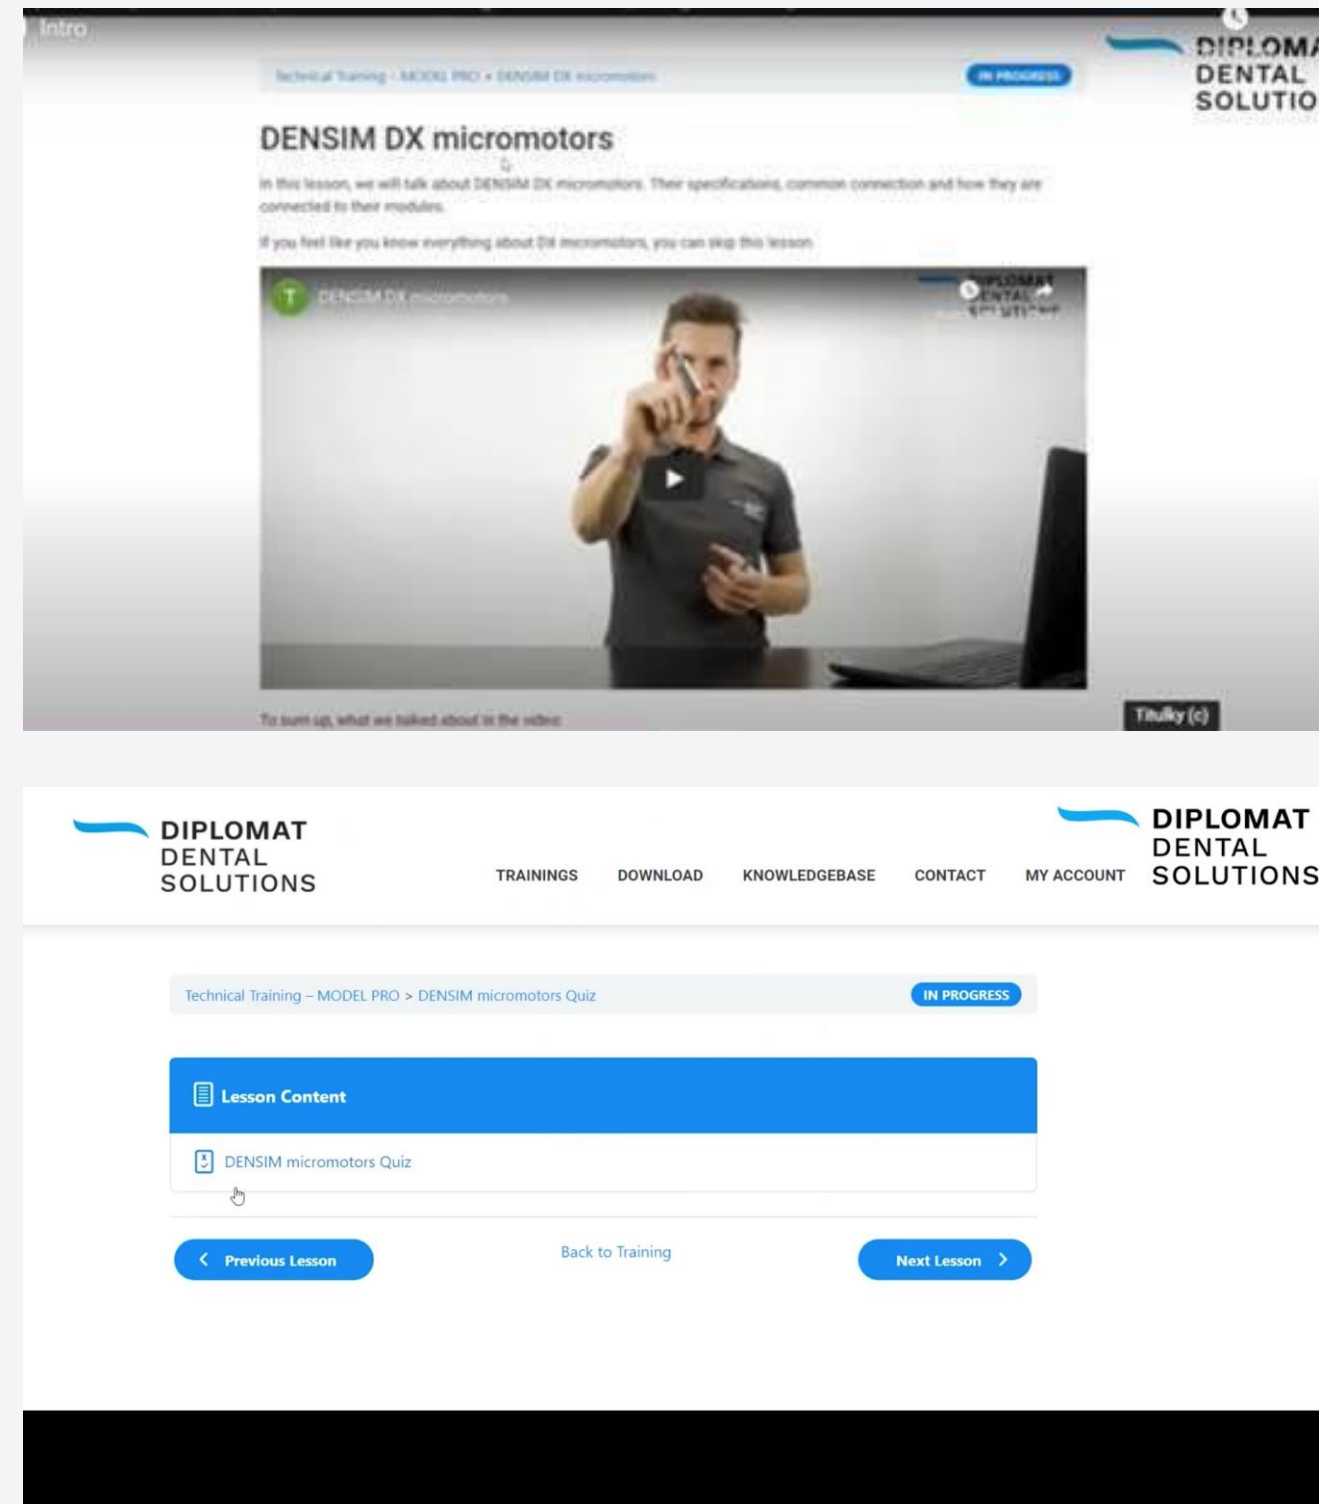

The flexibility of the dental unit customization makes us a unique competitor on the market.
